Desbloqueada la tabla ya se puede insertar el registro

Lo mismo ocurre al insertar un registro

The screenshot shows the MySQL Workbench interface. The SQL editor contains the following queries:

```
1 use tintoreria_aries;
2
3 select * from precios_prendas;
4
5 insert into precios_prendas(Tipo_Prenda, Precio_Unitario)
6 values ('Ejemplo', 500);
7
8
9
```

A green speech bubble points to the SQL editor with the text "Bloqueada la tabla". The Output window shows the following results:
